

Call for Proposals

Deadline: Nov. 8, 2021

The Southern Association for the History of Medicine and Science

SAHMS is seeking paper, panel, and roundtable proposals for its 2022 conference.

We welcome abstracts on a broad range of topics from any period in the history of science, medicine, and technology, and encourage submissions from graduate students, faculty, professionals, and independent scholars.

We especially invite submissions that address global histories, as well as those related to the histories of disability, race, gender, or the environment.

Topics do not need to be Southern in focus and presenters do not need to be affiliated with Southern institutions to submit a proposal.

The conference currently is scheduled to be in-person, but the organizers will evaluate the situation closer to the conference date.

Questions can be emailed to sahmsconference@gmail.com.
